Graphstick is a revolutionary new fabric printed material that can be mounted to any surface and re-positioned countless times while still retaining its adhesion without leaving any residue on your surface. It can be used indoors or outdoors. It's water-resistant, doesn't tear or wrinkle, dries instantly, has been wind tested at 500 mph, and can be illuminated with back-lighting. Here's just a few ideas for use:

- Photos
- Banners
- Posters
- Logos
- Wall graphics
- Car Graphics
- Floor decals
- Elevator advertisements
- Trade Show Booth Graphics
- Laptop Skins
- Sports Cutouts
- Political Signs
